# CARRIERRATE 2.0

### **DISRUPT THE MARKETPLACE**

CarrierRate 2.0 is an intelligent redesign of CarrierRate that looks and feels sophisticated, yet remains comfortably simple. We've retained the vital elements and familiarity of CarrierRate while delivering a massive leap forward in metrics and advanced communications to forge the most intuitive platform in the marketplace.

## **GLOBALTRANZ**

## **GLOBALTRANZ**®

## CARRIER**RATE2.0** A TRUE ONE-STOP SHOP FOR FREIGHT

Carrierrate2.0 allows users to manage a full shipment life cycle. A complete TMS (Transportation Management System) solution that allows any size shipper, from the smallest to the largest business, to manage their logistics needs

- Support for multiple shipment modes
- > LTL, TL, EXP
- Shipment Management
- Exception Management
- Online Invoicing
- Claims Management

Inventory Management

- >Warehousing
- > Dedicated Customer Service
- Freight Bill Auditing
- Supply Chain Management
- > Supply Chain Management

### EASE OF USE | SPEED OF USE

Carrierrate2.0 truly supports how a shipper works day-to-day, eliminating the need to conform to a static operating system.

With CR2, encounter a system that conforms to your specific duties and responsibilities – offering industry leading shipper flexibility.

**Tabs** - Shipment and Quote tabs allow for a shipper to seamlessly switch between various activities without losing information previously entered. This feature creates flexibility and real-time quoting capabilities formerly unrealized in the industry.

#### SAVE QUOTES FOR FUTURE USE

The system allows users to save quotes for future use at any step along the quoting process.

Run multiple quote tabs at the same time to build LTL, TL, and EXP quotes for several customers simultaneously.

Retrieval of quotes and pre-population of workflow can now be accomplished with the greatest of ease.

#### INTELLEGENT ADVANCED SEARCH

Locate shipments, quotes, customers and products with simplicity.

#### ADDRESS AND PRODUCT LIST

The new address book intuitively loads contact information and sets commodities, class numbers, NMFC numbers and accessorials related to any given stored address.

## **INFORMATION AT YOUR FINGERTIPS**

**Insightful Carrier Analytics** – making carrier decisions based upon parameters important to you or your customer base. Sizable gains in metrics mean you can easily sort each quote by information that matters most to help determine which carrier is right for each shipment.

Drill down further into each carrier to gather vital stats based on their last 30 days performance across the entire GlobalTranz network.

Added control over carrier insurance means that you can customize loads by specific needs.

## **DECISION DRIVING ANALYTICS**

Comprehensive and powerful reports created to help shippers make informed and intuitive decisions about their logistics activities.

CARRIER SCORECARD
Interactive Reports
Customizable Dashboard

CarrierRate 2.0 proudly introduces the Reporting Dashboard, a robust data source to gain the competitive edge you need to maximize your business' potential.

We're placing high-quality key performance indicators in your hands to better optimize your shipping like never before.

Get a quick overview of the major indicators you determine are important, allowing you to track and follow the information that effects your business most.

## HELP AND COMMUNICATIONS

**CARRIERRATE 2.0** also introduces a new live chat feature for unprecedented real-time communications between the Agent and the customer.

Agents, engage with your shippers.

LARGE SHIPPER SUPPORT

Shippers, enjoy the reliability of real-time communication with knowledgeable agents and the capabilities of self help teamed with the new advanced search options.

#### UTILIZE THE SYSTEM LIKE NEVER BEFORE FOR LARGER SHIPPERS:

- > User Management
- Location Management
- Address Book / Product List
