In addition to setting the industry standard in hard cost savings and customer service, GlobalTranz proprietary software, CarrierRate 2.0 reporting, gives customers the flexibility to go online and book shipments based on real-time reporting, broad analytical data and carrier performance. Simply key in your needs and select from a listing of the top US carriers and let your Logistics Specialists do the rest.

SINGLE SOURCE TECHNOLOGY PLATFORM

- Choose your carrier based on cost, transit time, and preference ◀
- Choose from industry leading carriers for your specific shipment ◀
 - Schedule pickups with one click ◀
 - Track your shipments online ◀
 - National, regional, local relationships ◀

CarrierRate allows shippers to go online and book shipments based on transit time, carrier performance and cost. Using CarrierRate, the shipper simply keys in their needs and then selects from a listing of the top US carriers, at rates otherwise unavailable to them.
